

## Use Kerosene For Farm Engines

Kerosene can usually be bought for about half the price of gasoline and

### Fairbanks-Morse Oil Engines

will develop as much power on a gallon of kerosene as on a gallon of gasoline.

Bear in mind that in a Fairbanks-Morse kerosene engine you have one you can absolutely rely upon. They are fully developed and will do all we claim for them. Equipped with throttling governor and built-in magneto. Start easily even in cold weather.

While designed especially for kerosene these engines will use either kerosene or gasoline economically. Very simple in construction. All parts accessible. Quiet, smooth running engines that develop full power at low speed.

## "SAY" HOW ABOUT THAT INDIANA SILO?

Feed of all kinds will be scarce and high in price this coming winter.

The Indiana Silo Co., had sold more Silos up to July 1st, than they sold all last year, and they are warning me to get my orders in as early as possible, for fear they would not be able to fill late orders.

## COMMISSIONER'S SALE OF LAND.

GARRARD CIRCUIT COURT.  
James T. Doty, et al., Plaintiffs,  
VS.  
W. A. Doty, et al., Defendants.

Pursuant to a judgment rendered at the June Term, 1914, the undersigned Commissioner will sell at public auction before the Court House Door in Lancaster, Kentucky, at 11 o'clock A. M. or thereabouts, on

MONDAY, SEPTEMBER 28, 1914, it being the first day of the Garrard County Court Term, the real estate mentioned in the pleadings and described as follows:

First: A house and lot in Lancaster, Garrard County, Kentucky, on the North side of Danville street and bounded as follows: Bounded on the East by R. E. McRoberts; on the North by the property of W. O. Rigney (now Jennie Mount); on the West by the property of George Smith and on the South by Danville street, being the same property conveyed to Lizzie L. Doty by Mattie P. Frisbie, and others, by deed dated August 7, 1906, and recorded in the Clerk's office of the Garrard County Court in Deed Book 21, page 330, and said deed is referred to for more specific description of the land.

Second: A tract of land in two boundaries and adjoining in Garrard County, Kentucky, at Point Leavelle and is bounded as follows:

1st Tract: Beginning at a stake at the South edge of the Lancaster and Richmond turnpike, 1 pole from the center of the same near the East abutment at the end of the wing wall of the bridge across the West fork of Back Creek; thence down the creek on the East side N 3/4 W (a beech tree fore and aft) 37.6 poles to a box elder stump turned out of root on the same East side; thence N 3/4 W 4 poles to a box elder growing from the same root; and on the East bank of said creek; thence down the same on same side N 3/4 W, 13 poles to a stake at the West side of roots of a sycamore on same side of creek; thence down the same side of creek thence down the same side and in the same N 91 E 44 poles to a stake at the end of a stone fence on the East side of said creek (all the foregoing corners to James G. Denny); thence his line N 4 E 89 poles to a stake in said line S W 1/4 Sec. 34, T. 2 N., R. 2 E., containing 3.19 poles to a stake in the West side of Back Creek; thence S 73 W 7 1/2 poles to a stake, corner of plank fence; thence N 77 W 72.6 poles to a stake in A. R. Denny's line, near a black walnut; thence S 80 W 33 poles to a stake in the West side of Back Creek; thence S 56 W 24 1/2 poles to a stake in A. R. Denny's line and corner to James N. Denny; thence S 25 E 23.1 poles to a stone near a sugar tree; thence S 19 E 39 poles to a stake in the Lancaster and Richmond turnpike; thence with same N 80 E 84 poles, S 26 E 36 poles S 51 E 13 poles, corner to William Beazley, (colored); thence with his line N 22 E 29 poles to a stake N 22 E 34 poles to a stake; thence S 78 E 38.8 poles to a post near a spring; thence S 29 E 9 poles to a stone; thence S 103 — to a stake in said turnpike; thence S 79 E 23.1 poles to W. A. Doty's line, being the beginning, containing 3.19 poles and 33 poles, using the same land conveyed to said Elizabeth Doty by John Y. Leavelle, et al., by deed dated September 25, 1879, and recorded in the Clerk's Office of the Garrard County Court in Deed Book 21, page 330.

2nd Tract: Beginning at a stake in the Richmond and Lancaster turnpike road, running thence N 80 W 13 poles to a stake in said road; thence S 80 W 33.8 poles to a stake in the West side of Back Creek; thence N 22 E 20 poles to a stake near a gully; thence N 21 E 34.3 poles to a post; thence S 78 E 38.3 poles to a fence post near a spring; thence S 29 E 9 poles to the beginning, containing 12 acres and 71 poles, being the same land conveyed to Lizzie L. Doty by J. A. Doty by deed dated November 7, 1911, and recorded in the Garrard County Clerk's Office in Deed Book 25, page 208.

Through the aforesaid land there is reserved a passway leading from the land of J. A. Doty over the said land herein described to the Richmond and Lancaster Turnpike at Point Leavelle. Said passway runs parallel with and on the West side of Back Creek on said land and is the same that is now used and has been used for many years as the road from the said pike to the residence of the said J. A. Doty, and the same is 16 feet wide, being the same passway conveyed to J. A. Doty by W. A. Doty, by deed dated December 21, 1906, and recorded in said Clerk's office in Deed Book 22, page 125.

The purpose of this sale is to pay the debt due Mattie P. Frisbie of \$1,000, with interest at 6 percent from January 1, 1914, until paid, and further to divide the residue of the proceeds after the payment of costs between the heirs-at-law of Elizabeth L. Doty, as their rights may appear.

### TERMS.

The sale will be made on a credit of six and twelve months and the purchasers will be required to execute bonds with approved security for the purchase price, due in six and twelve months bearing six per cent interest from date until paid, having the force and effect of a judgment upon which execution may issue, payable to W. H. Brown, Master Commissioner of the Garrard Circuit Court, and a lien will be reserved upon the property sold until all the purchase money is paid. The property in Lancaster, Ky., and the property at Point Leavelle, Ky., will be sold separately.

## TO HAVE PRETTY HAIR.

If your hair is not as soft and pretty, or as fresh and full as that of some friend, do as she does—give it daily attention, just the same care you would give a plant to make it healthy and beautiful. Luxuriant hair—soft, fluffy, thick and lustrous—is really a matter of care. If it is too thin, make it grow. If it is too dry and brittle, soften it up—lubricate it. If you have dandruff it is because the scalp is too dry and flakes off.

Parisian Sage, an inexpensive tonic, which you can get from any druggist, or from R. E. McRoberts is just what you need—it softens the scalp, nourishes the hair roots, immediately removes dandruff, and makes the hair fluffy, lustrous and abundant. Parisian Sage takes away the dryness, stops itching head, makes the hair twice as abundant and beautifies it until it is soft and lustrous.

By the use of this helpful tonic any woman can easily make her hair fluffy, soft and pretty.

## Making the Little Farm Pay

By C. C. BOWSFIELD

A POULTRY owner's troubles and losses do not actually begin until he has a few scores of baby chickens on his hands. Success or failure will be determined at this point.

Chickens do not require food for the first thirty-six hours after hatching. One of the best foods that can be fed the first few days is stale bread soaked in milk. This should be crumbled fine and placed where the chickens have free access to it and where they cannot step on it. One of the difficult problems for the poultryman is to devise some means for feeding little chickens so that they can consume the food without soiling it. If placed on the floor of the brooder or the brooder run the larger part of the food will be trampled upon and will soon become unfit to eat. Small, narrow trays or troughs are easily made and answer the purpose of keeping the chicks from trampling on their food.

Granulated oats with the hulls removed make an excellent food for young chickens. There is perhaps no better grain for young chickens than oats prepared in this manner. It may be fed to good advantage after the second or third day in connection with the bread soaked in milk.

The chickens should have free access to some kind of grit after the first day. Course sand makes an excellent grit for young chickens. As they get a little older some coarser material must be provided.

Milk is an excellent food for these young fowls, but it requires skill in feeding. One of the great difficulties in rearing fowls is to carry young chickens through the first two weeks without bowel disorders. Too low temperature in the brooder, improper food and injudicious feeding, even if the right kinds of food are given, each plays an important part in producing these disorders. After the first ten days milk may be given more freely perhaps than during the earlier stages of the chick's existence.

A mixture of fine middlings, wheat bran, cornmeal and a little linseed meal softened with milk makes a valuable food. Hard boiled eggs may be fed from the beginning, but, like milk, require more skill than the feeding of bread soaked in milk. On farms where screenings from the various grains become really a by-product these form a cheap and efficient food for chickens. Wheat screenings especially form one of the best foods if they contain a considerable portion of good kernels that have not cracked in threshing. Then, too, the screenings contain a number of weed seeds that have some feeding value and are relished by the fowls. They not only provide sustenance, but give variety, and this in a measure improves the general health.

A good mixture of grains is equal parts of whole wheat, cracked corn and cut or crushed oats. Some poultrymen prefer to feed wheat one day, corn the next and oats the next. This is all right either way. Grain once a day is sufficient if a variety of other food is available. A cheap and valuable food is stale bread or rolls which bakeries and restaurants sell at 1 cent a pound. Hotel and restaurant table scraps may also be obtained at a small cost. All kinds of vegetables, raw or cooked, may be used. Meat scraps or ground bone may be fed sparingly with mash. Give the grain in a clean litter early in the morning, mash at noon and vegetables, softened bread or grain in the evening. Make the mash with skim milk if it is available. Sour milk and whey are good substitutes now and again for mature fowls.

Where fowls are kept in confinement it will be necessary to supply some meat food. Finely cut fresh bone from the meat markets is one of the best, if not the best, kind of meat for laying hens. Unfortunately it is not practicable for many poultrymen to depend wholly on this product, for the reason that it is often inconvenient or impossible to obtain, and when once secured it cannot be kept in warm weather without becoming tainted. Tainted bones should be rejected as unfit for food. Skim milk may be substituted wholly or in part for meat food without a decrease in egg production, provided the proper grain ration is given.

Flowering Pear Trees.  
If pear trees flower heavily a few of the smaller blossoms on each tree should be thinned out.
